[All Seasons] In spring or summer, the quilts can not only keep warm, but also light and stress-free, bringing you elegant warmth. In fall or winter, you can use it with bedding. Depending on the season, it can be used as comforter, bedspread or coverlets.

[Sleep Quality Promotion] light, airy, and smooth for an incredibly comfortable sleeping experience, easily contouring to your body for a cozy and relaxing sleep. Compared to other material filled comforter, it is more breathable, super soft, and won't rustle. Besides, quilt is great for your skin and hair for it helps retain moisture and reduce damage caused by fabrics with high friction.

[Body Temperature Regulating] It keeps you cool in summer and warm in winter. The natural thermal regulator property of quilt provides a consistent temperature for sleep, and its great moisture absorption ability keeps your bed dry, thus withstanding most temperatures and seasons.

[Allergy Free] 100% mulberry silk comforter helps you fall in deep sleep especially for those persons and who often sweat and cough at night. It keeps moisture away from your body. Natural silk-filled comforter would be an excellent option for people who tend to be allergic often.
